

# Brainwashed

Devlin

It's D.E.V.- L.I.N your girlfriend thinks I'm handsome  
I brainwash your mind like Derren Brown or Charlie Manson  
You won't suggest I'm random when I take the scene for ransom  
And I'm packing out stadiums with the fans singing my anthems  
Dirty like Lesley Grantham  
This is my manipulation  
So forget the speculation on all the trials and tribulations  
That I've faced along the way because now I've changed my situation  
My names lodged up in your brain just like a blade in an operation  
But now their all discussing me in their everyday conversation  
Assisting me to spread the word so brace for an invasion  
Neurological science I'll give you braincells re-wired  
My names Devlin & I'm just tryna gain entry to your mind

I fought up my corner, didn't I warn ya,  
That one day you'd know my name  
A few years older now I'm singing  
Ayo ayo remember me  
Do you do you remember me!

But now your being brainwashed.  
They never knew what my name was  
But now your being brainwashed

You better recognize my name just like your family members  
My flows so tremendous shining like a thousand embers  
We came to take over your town til every man surrenders  
And kidnap your vocabulary until my name is all that man remembers  
You never knew me when my life was dark and gloomy  
But now my life is like a movie starring role yours truly  
So familiarize yourself with the cast upon the set  
If your unaware of how I'm moving then you ain't heard bars yet  
Naah!  
I'm Mr fire mic just like David blaine & Paul Mccenna  
Hypnotism different frame of mind whenever I pick the pen up  
So in the future if you remember any name again  
Make a mental note of 6 letters D.E.V.LIN!

I fought up my corner, didn't I warn ya, that one day you'd know my name  
A few years older now I'm singing ayo ayo  
Remember me do you do you remember me

But now your being brainwashed  
They never knew what my name was  
But now your being brainwashed

D.E.V.L.I.N make sure you remember me  
D.E.V.L.I.N brainwashing your memory  
Standing my  
Make sure you remember me, make sure you remember me  
O.T. Bud sweat and beers.  
D.E.V.LIN standing my...  
Now I'm here, now I'm here!  
Make sure you remember me, make sure you remember me

I fought up my corner, didn't I warn ya, that one day you'd know my name  
A few years older now I'm singing ayo ayo

Remember me do you do you remember me
