

# Giant

Devlin

Got a feeling that the earths gonna shake tonight,  
Got a feeling the'll run when they see the light  
Everybody better move when he starts to fight  
Make way, make way for the giant,

Stand up  
Stand up, stand up, stand up  
Put your bopping hands up, hands up  
I'm tryna get my grands up, grands up  
Everybody stand up

I've got this feeling when I stand up  
I'll have to bend my neck so my cranium don't touch the ceiling  
I'm defiant, call me Andre the giant  
Hell of a monster of a man  
But my tongues the only weapon I'm concealing  
Wanna know why I'm so huge  
Because my lyrics are mass appealing  
I'm metaphorically massive  
But stick thin through due to the lack of food I'm eating  
My size and shapes deceiving  
You better start to hide your face  
Because whenever I'm side to base I'm causing side make quakes deceiving I'm  
an Ogre thought I told ya I ain't no big friendly giant  
And this ain't David and Goliath  
So go to war and you won't triumph  
With your slingshot I think not  
It's time that you retire  
Deaths arose through a fire to acquire  
The status and position that is higher  
Yeah my life has been quite frantic  
That's why I make sure my mycantics are gigantic  
Make sure u keep it locked like M.I.5  
When your listening through the wire  
Contest and consequences will be dire

Stand up,  
Got a feeling that the earths gonna shake tonight,  
Got a feeling the'll run when they see the light  
Everybody better move when he starts to fight  
Make way, make way for the giant,

Got a feeling that the earths gonna shake tonight,  
Got a feeling the'll run when they see the light  
Everybody better make a move when he starts to fight  
Make way, make way for the giant,

For too many years now  
I've been underground like a prehistoric fossil  
But this god sent aposols to colossal not to be  
Splashing cash and popping bottles  
Because my rhymes are astronomical  
There lines are nothing but comical  
Quite frankly there diabolical (JEASE)  
I guess my size is overwhelming  
You don't possess the capability to fight monsters like van-helsing  
Because I'm massive

Every syllable every metaphor every passage  
I'll be the oversized savage like the croc in lake placid (RAHHH)  
I'll sweep u off your feet just like white water rapids time  
To bins thought like jack or consequences will be tragic  
But this ain't fairy tale magic (NOO)  
I'll force you to resign just like a poor old poor mechanics  
Who compose as you like  
That's why I'm the giant round the mike  
In a business where u can't afford to panic  
And now it seems like the time has become a virtue  
But it's worth the wait  
I'll place my size 10 on the curb  
And then till the earth will shake till the day I'm in a box  
I don't deserve a break,

Got a feeling that the earths gonna shake tonight,  
Got a feeling the'll run when they see the light  
Everybody better move when he starts to fight  
Make way, make way for the giant,

Got a feeling that the earths gonna shake tonight,  
Got a feeling the'll run when they see the light  
Everybody better move when he starts to fight  
Make way, make way for the giant,

Oh oh oh stand up now... yeah oh oh oh

Stand up  
Stand up, stand up, stand up  
Put your bopping hands up, hands up  
I'm tryna get my grands up, grands up  
Everybody stand up, stand up stand up
