

# Big Adventure

Devo

The world, it goes around  
Yet it never seems to get nowhere  
Though it turns and spins in time  
But it never takes us somewhere new

I wish the world would just stop  
And shoot off where it's never been  
I want the big adventure  
Where it can be that I see something new

I want the big adventure  
I want the big idea  
I don't need forever  
Just want the big adventure  
I want to, I want to melt down with you

The movies are always different  
Yet they always look just the same  
It's a simple canoe come at you  
Just paddling a brand new name

I wish just for once that the menu  
Would offer up a brand new slice  
An adventure so big and so real  
And a dream for once would be so nice
