

Don't Rescue Me

Devo

Don't rescue me
I don't want to be
Let you and me be
Out of control

Just because I can't sleep at night
Just because I hear your voice
Just because I see your face
Just because I want you

You, you're the one
Turn me inside out
You, you're the one
Make me scream and shout

You, you're the one
De-railroaded me
You, you're the one
Don't rescue me

You make me move
Where I never been
Lost in orbit
All over you

Just because I can't sleep at night
Just because I hear your voice
Just because I see your face
Just because I want you

Don't bring me back
I beg to differ in fact
You can question why
But what good is that
Don't rescue me I won't go back no I

Don't rescue me
I don't want to be
Let you and me be
Out of control

You, you're the one
Turn me inside out
You, you're the one
Make me scream and shout

You, you're the one
De-railroaded me
You, you're the one
Don't rescue me

Just because I can't sleep at night
Just because I hear your voice
Just because I see your face
Just because I want you

You, you're the one

Turn me inside out
You, you're the one
Make me scream and shout

You, you're the one
De-railroaded me
You, you're the one
Don't rescue me
