

# Fresh

Devo

Something in the air  
Is telling me to go there  
So I'll follow my nose  
Go wherever it goes

It's calling from around the corner  
Waiting just outside of town  
Trailing vapors sweet and tangy  
Daring me to track it down

It's blanketing the high-rise towers  
Blasting through the sands of time  
It's useless to resist its power  
It's now or never

So fresh!  
I'll search until I find it  
So fresh!  
I'm closing in behind it  
So fresh!  
Nothing could be better  
So fresh!  
Like I died and went to heaven

So fresh it almost makes me want to cry  
So fresh it's givin' me a second life

I see a fork in the road  
Where it goes I don't know  
I won't even think twice  
I really don't have a choice

It's calling from around the corner  
Waiting just outside of town  
Trailing vapors sweet and tangy  
Daring me to track it down

It's blanketing the high-rise towers  
Blasting through the sands of time  
It's useless to resist its power  
It's now or never

So fresh!  
I'll search until I find it  
So fresh!  
I'm closing in behind it  
So fresh!  
Nothing could be better  
So fresh!  
Like I died and went to heaven

So fresh!  
So fresh!  
So fresh!  
So fresh!

So fresh it almost makes me want to cry

So fresh it's givin' me a second life

So fresh it almost makes me want to cry  
So fresh it's givin' me a second life

So fresh!
