

## Later Is Now

Devo

MC yells "I'm free  
Hey dude! Comin' through"  
As he mows 'em down

In his truck, pedal's stuck to the floor  
4x4, burnin' oil by the ton

I walked outside, it hit me on the dome  
If you don't want trouble, you should stay at home  
In the day-glo sky above the devolved city  
I looked up and saw the banner big and bold

"Later is Now"  
Sooner or later, everybody gets it right  
Later is now!  
Sooner or later, everything comes to light  
Later is now

Lotta Gold on the phone  
Dishin' dirt 'til it hurts  
Sends 'em all to hell

Stalks their prey every day  
Nasty blog, it's a job  
Makin' trouble pays her well

I walked outside, it hit me on the dome  
If you don't want trouble, you should stay at home  
In the day-glo sky above the devolved city  
I looked up and saw the banner big and bold

"Later is Now"

Tomorrow is a replay, so tonight I'll try to sleep  
I'll deal with it later!  
I'll deal with it later!  
I'll deal with it later!

Later is now!  
Sooner or later, everything comes to light  
Later is now!  
Sooner or later, everybody feels the bite  
Later is now!  
Sooner or later, everybody gets it right  
Later is now!  
Sooner or later, everything comes to light  
Later is now!
