

# The Only One

Devo

I heard voices from the other side  
I saw faces filled with pride  
I felt the things that I left inside  
I see the final lovers come  
I am the only one  
I am the only one  
(You live your life alone)  
I am the only one  
(But when you see)  
The final lovers go  
I am the only one I am the only one  
(You live your life alone)  
I am the only one  
(But when you see)  
The final lovers go  
I lost count of the days gone by  
I looked forward to another try  
Strapped into a fateful lie  
I see the final lovers come  
I am the only one I am the only one  
(You live your life alone)  
I am the only one  
(And when you see)  
The final lovers go  
I tried to throw a tussle with the rain  
(Planned for a tomorrow that never came)  
Until the day that it was never the same  
It's good to know where you come from  
I am the only one  
Oh yes, oh yes-ah  
Get outta my way  
I am the only one  
I am the only one  
(You live your life alone)  
I am the only one  
(But when you see)  
The final lovers go  
I am the only one I am the only one  
(You live your life alone)  
I am the only one  
(But when you see)  
The final lovers come  
I am the only one I am the only one  
(You live your life alone)  
I am the only one  
(But when you see)  
The final lovers come
