Hello,
```

This is devo
We would like
to say Things go both ways
New ideas stupid moves
Nightmares or dreams come true
Mucho work minus play
Tension mounts in a twisted face
Dark clouds in the crystal ball
Tension mounts in a foreign place
The screw turns someone calls

Time out for fun! Time out for fun! (2x)

So you're living under the gun Circumstances have you on the run A doctor frowns you feel bad Take this you've just been had!

Don't you lose it now listen to us Everything's going to be all right Take a break take some time Everything's going to be all right Don't you lose it remember to take

Time out for fun!
Time out for fun!
(2x)

Don't you lose it now listen to us Everything's going to be all right Take a break take some time Everything's going to be all right Don't you lose it remember to take

Time out for fun! Time out for fun! (2x)

So your life has just begun Somebody else is saying that it's done Nurses whisper others grin Something's funny at your expense again

Don't you lose it now listen to us Everything's going to be all right Take a break take some time Everything's going to be all right Don't you lose it remember to take

Time out for fun!
Time out for fun!
(2x)
