

# All The Sand In All The Sea

DeVotchKa

All you precious souls  
And the ?  
Or bargain basement loves  
To come and ? us  
Til you're having visions of these fine conditions  
Overseas transmissions to anyone who will listen

You're waiting for your drums to kick in  
You wanna free your earth-bound wings  
I am gonna count to three then you are leaving here with me

Are we wasting all our precious time  
Chasing dollars, chasing dimes?  
German, English, Japanese  
All the sand in all the seas  
It's the only place  
It's all we know  
And as we speak it's going down  
And don't forget me, look back for me  
Here's the part that always gets me

You float across the room  
Your lips are in full bloom  
Letters fall from your mouth  
As you found me out  
You've been here before  
Out on the civil war  
I'll wait religiously  
Don't forget that you came here with me

Are we wasting all our precious time  
Chasing dollars, chasing dimes?  
German, English, Japanese  
All the sand in all the seas  
It's the only place  
It's all we know  
And as we speak it's going down  
And don't forget me, look back for me  
Here's the part that always gets me
