

## Along The Way

DeVotchKa

The gringos block the roads  
Inside your head  
Are you sleepin git off  
when you're not in your bed?  
You pray in the darkness  
Let me walk in your light  
Let me die in my lover's arms  
Let me love through this night

You are watching over my three brave soldiers  
I have not forgotten  
I will send you  
Something...

So this is the city  
So this is progress?  
How can something so pretty  
become such a mess?  
There is no more than this steal and stone  
More than this flesh and bone  
there is a little piece of land in me  
No other man can own

Who is watching my three brave soldiers  
I have not forgotten  
I will send you  
Something...

Well shut my mouth  
I have nothing to say  
except, what is this life?  
with no love along the way  
You know that I'm good for it  
You know I can pay  
We don't have to look for it  
It is right here  
It's today
