

# Basso Profundo

DeVotchKa

I'm concentrate on teh wrong side of the law  
From the creator  
of this beautiful strip mall  
A decimator of the cinder block world  
A ventilator of the rallying call  
One by one I take them on  
this will be my revolucion  
One by one they will be gone  
I will not sleep til it be done  
Basso profundo  
yeah everybody knows  
todo el mundo  
it's shaking the windows  
the tide is shifting  
everybody says NO MAS  
the boat is drifting  
from the ones who control us

They never have enough they never have enough they  
never have enough  
the money is all that they love

All the world is for the taking  
Just forget the hearts you're breaking  
Is this love that you are making  
or is it a deal?

Renacimiento

that's something I can do  
Este pobrecito  
has jut gotten some bad news  
Mis hermanos we so close  
Ten thousand light years  
from the ones we love the most

They never have enough they never have enough they  
never have enough  
the money is all that they love

All the world is for the taking

You are my sugar  
You are the salt upon the earth  
When will they see you?  
When will they pay you what you're worth?  
Amor mio I'm so close  
Solo tù y yo  
thats what I want the most

I never have enough I never have enough I never have  
enough  
You'll be the death of me my love
