

Get Out Of My Way

Devour The Day

Word of mouth

I'm starting fires that you'll never be able to put out

Town by town

I strike that match and than I watch the city burn to the ground

You want to reach out and take it

You want to make it on your own

Get up and get with me

Get with me or get out of my way

Get out of my way

Round and round

Your head is spinning but you still can't seem to figure me out

Fall back down

That's the only reason I'm up here and you're in the crowd

You want to reach out and take it

You want to make it on your own

Get up and get with me

Get with me or get out of my way

Get out of my way

Get with me or get out of my way

Get out of my way

Follow the voices in your head

Get up and get with me

Get with me or get out of my way

You want to reach out and take it

You want to make it on your own

Get up and get with me

Get with me or get out of my way

Get out of my way
