

# Abomination Unseen

## Devourment

Something dormant inside of me  
An evil awakened, soon to be free

A murderous vision of what's to be

Axe against the torso, gushing murderous, infectious, homicide  
Thirst for the blood spray, spilling, coloring the walls red  
Dead in seconds, mutilate extremities, chop off the head  
To fornicate the lifeless object until I feel release

The bloodlust, snares a horde of victims  
Many fall before me  
A bloodbath ensues as I stab wildly  
Indiscriminate flesh is hacked to pieces

Bodies are ravaged and torn to shreds  
Bloodthirsty beast stands before the dead  
Sexual lust turns my vision red  
Blunt objects forced to smash open heads

Torture drives me  
Guts draped upon me  
The suffering delights me  
I write in the agony

Gallons of blood, spilled on the floor  
I rub my cock as I lick up the floor  
Dead victims lie, a wonderful sight  
Killed them for pleasure my own sick delight  
Headless and butchered, torn limb from limb  
Hunger takes over I disgorge wet skin  
Ravaged and murdered, lifeless and cold  
Now I will choke on my own death

Dead, I will take my  
Life, the last act of  
Mine, I'll carve my face into nothing  
Dead, I will take my  
Life, the last act of  
Mine, my veins will spray til I'm no more
