

## Conceived in Sewage

### Devourment

Conception, of sickness  
The blackest of souls  
Creation, revolting  
These eyes see death eternal  
The wretched stench gives me the life force to slay you  
The depths in which I dwell would cause a stalwart soul  
to tremble  
Lecherous intent is the driving force within me  
The dying screams of victims, a ravenous atonement  
Abduction of a helpless pawn, over and over  
I force the rusty knife inside, over and over  
The blood sprays across my face, over and over  
The urge to feed consumes my brain, over and over  
Conception, of sickness  
The blackest of souls  
Creation, revolting  
These eyes see death eternal  
Gorging chunks of steaming meat  
The sickening urge is now complete  
But wait a new idea has sprung I'll fuck the dead until I  
cum  
The pounding, the thrusting, the pleasure, disgusting  
The violence, the torture, indulge me, forever  
The pounding, the thrusting, the pleasure, disgusting  
The violence, the torture, indulge me, forever
