

## Parasitic Eruption

## Devourment

Awakened  
From tearing  
Protruding  
Infected  
I feel them crawl  
They pinch my skin  
Infesting me  
From deep within  
I'm rotting from the inside out  
Parasitic grubs pour out of my mouth  
The taste of filth consumes my senses  
Comatose I lie defenseless  
My sinful acts caught up with me  
A gift from hell this was to be  
Vicious worms, tear my flesh  
Pulsing mounds push through my chest  
Frothing pus, bleeding eyes  
Eaten as I slowly die  
Thousands of maggots grub my body, forced to behold the  
painful terror  
Lusting to die to end the torture, sight of the swarm  
brings me to seizure  
Parasites, swarming Mass of bloody piles squirming  
Every orifice erupting with grubs as the last of my  
fluid flows from my mouth  
Now I feel the faintness begin to creep in, I am  
finally free from the pain I writhe in  
What is this? I'm still alive  
Bound and gagged, under blinding light  
My body numb, I look to find  
No limbs, no skin a new nightmare begins  
The parasites injected as a twisted experiment  
I lie helpless at the mercy of this lunatic  
Keeping me alive, to endure impending torture  
Burning from inside my skull, I feel the drill behind  
my eyes  
Engulfed in endless pain I find  
The insane torment twists my mind  
Injecting grubs inside my brain  
They'll nest and spawn to life again  
They crawl again, in my head  
Feasting through my ravaged form  
Please let me die, let me die  
This pain I can endure no more  
Awakened  
From tearing  
Protruding  
Infected
