

## For You And Forever

Dew-Scented

Transmogrified  
By the beauty of this phobia  
I thought I had seen them all  
And forgotten was my wish  
To find life  
In this world of misery  
My tiny passionflower  
This is meant for you and forever

Return me to these days  
Where no sin ever caused pains  
Please recover my bitter loss  
And put an end to my disgrace

Far afield the sky  
But your perfume brightens my faith  
No more I dream  
My trivial round is my kingdom  
I touch the maze  
To feel reborn in purity  
Just listen to my words  
I was made for you and forever

For you and forever I die
