

# Breathe

Dexter Freebish

I wake up everyday scared about tomorrow  
I just don't know what to believe  
And are we running out of all this time we borrowed  
I'm drowning in reality

Breathe  
We've gotta let it go  
Turn around and just  
Breathe  
Tomorrow will come, can we  
Breathe

The days I saw when I was young are unfamiliar  
When were we taught to live this way  
And as the years go by is our future clearer  
Or will it all just fade away

Breathe  
We've gotta let it go  
Turn around and just  
Breathe  
Tomorrow will come, can we  
Breathe

I'm just a stranger trying to make my way through life  
But I'm confused  
I'm sick of all the talking heads that lie to me  
I want the truth

Am I breaking through the walls that stand between us?

Breathe  
We've gotta let it go  
Turn around and just  
Breathe  
Tomorrow will come  
And still all I want is to  
Breathe  
We've gotta let it go  
Turn around and just  
Breathe  
Tomorrow will come  
Tomorrow will come
