

# Higher

Dexter Freebish

She was driving the car  
One thumb on the wheel  
Cigarette burning  
Life to her was no big deal  
Her thin, white tanktop  
was almost see through  
I've always been attracted  
to her butterfly tattoo

I wanted to know her  
I knew that she could  
show me the way, yeah

She could take me higher  
than I've ever gone  
She could take me higher  
than I've ever flown

The top was down  
the sun was on our necks  
I;m usually driving  
but today there are no regrets  
We were going some place  
and she could lead me there  
I can see her dapth once you  
peel away the layers...

I wanted to know her  
I knew that she could  
show me the way, yeah

She could take me higher  
than I've ever gone  
She could take me higher  
that I've ever flown

I never thought I could  
feel this way  
Ain't gonna look baco  
on yesterday, no  
I see the world open up for me  
It's in her eyes  
as she looks at me, yeah  
and now i know what I am here for  
yeah, I know

She could take me higher  
than I've ever gone  
She could take me higher  
than I've ever flown
