## Wild Things

## **Dexter Freebish**

Late night, neon hotels That's where the wild things are Next door, you think that you're safe That's where the wild things are

Lock yourself inside Maybe you'll find peace tonight Don't run away From what you don't know... no, no

The things you don't show, the secrets that you grow Keep 'em in, in a good hiding place While you're sleepin', I know you're dreamin' Of a good, yeah a good hiding place

Closed doors, is somebody home That's where the wild things are Backstreets, abandon this life That's where the wild things are

Lock yourself up tight Maybe you'll find peace tonight Don't run away >From what you don't know... no, no

The things you don't show, the secrets that you grow Keep 'em in, in a good hiding place While you're sleepin', I know you're dreamin' Of a good, yeah a good hiding place

Oh, it's so mysterious when it's on TV Oh, it's unpredictable and then it happens to me

The things you don't show, the secrets that you grow Keep 'em in, in a good hiding place While you're sleepin', I know you're dreamin' Of a good, yeah a good hiding place
