DI-RECT

Take me
To another place
Take me where the lights are
Where I can see my face
Discover why it rains on me
Discover why it has to be

Here I am
That little boy
Who's dreaming and discovering
A searching soul
Discover why it rains on me
Discover why it has to be

Take me
For what I am
Not a little dreamer
But an angry man
Discover why it rains on me
Discover why it has to be
Discover what was wrong or right
Discover why I can't win my fight

Here I am
That little boy
Who's thinking as a teenager
Burned al his toys
Discover why it rains on me.. yeah
Discover why it has to be

Searching for a new world
Will it break my heart
Living in my own world
I need a brand new start

Discover why it rains on me
Discover why it has to be
Making some noice
To get a better choice
The only thing is a little thing
The only thing is that voice
In my head
Drives me mad, I wont get
No guarantee

Discover why it rains one me, right
Making al my fantasies, right
If I could leave this misery
So long
All my life Ive learned to be
So strong
The only thing is a little thing
Deep down inside of me

Deep down..deep down inside
Deep down..inside of me
Deep down..

Would you take my side
And feel alright
People live to learn things
And I learned to live

Discover why it rains on me
Discover why it has to be
Making some noise
To get a better choice
The only thing is a little thing
Discover why it rains on me
