

## Inside My Head

DI-RECT

is it wise enough to say  
that i'm better off without you  
is it cool enough to fake  
cause all that i've been breathing is about you

is it wise enough to flow  
from my head until my toes  
but somehow i don't really know  
all that i've been doing is without you

is it you inside my head  
is it you inside who says  
that become someone else

and on and on my head keeps saying  
this is not what i believe in  
this is where it ends  
and on and on my mind is made up that  
that is why it never stops  
alone again, alone again

is it you inside my head  
is it you inside who says  
that i become someone else

i didn't know that you're buzzing right through inside my head  
i didn't know that you're coming right through inside my head  
i didn't know that you're buzzing right through no i ...  
i didn't know that you're coming right through no I ...  
i didn't know, i didn't know, i didn't know ...

i didn't know

is it you inside my head  
is it you inside who says  
is it you inside my head
