

## Just A Face

DI-RECT

I know it looks like I'm just waiting here  
That all I ever do is standing still  
But if you'd seen what I have seen  
Maybe than you'd feel the same  
I can't explain

That's why I'm looking for another sine  
Was she for real or only in my mind  
All I saw was just a face  
It's been haunting me for days  
There's no escape from her

She could be the one  
Can't deny I lost her  
Most be too far gone  
'Cause I can't forget her face  
There's no trains

I never thought there would be days like these  
It could be just because I'm?  
It's not that no one else will do  
This not that far that's just not you  
What can I do about it

You could be the one  
Can't believe I lost you  
Most be so far gone  
Imagining I with you  
You could be the one  
But there's nothing I could do  
I can't find you

This ain't no story  
This is not a movie  
Clean on a steadied black and white  
This ain't no love song  
You wouldn't hear my crying  
All I've got is a face without a name

You could be the one  
Can't deny I've lost you  
Most be so far gone  
Imagine in I with you  
You could be the one  
I can live without you  
You could be the one  
There's nothing I can do  
Where are you
