

## Enter The Maelstrom

Diabolic

Pulled away from life and  
Thrust into  
A world without a God  
No longer sheltered by  
The confines of the mainstream world  
Confidence wanes and is replaced with uncertainty  
Surrounded by the sights, the sounds and grim foreboding creeds  
Something in you urges on  
Demands that you proceed  
Is this what you wanted?  
Or do you turn and flee?!  
How and why could this  
Gathering of humanity  
Co-exist and thrive  
Amongst the huddled sheep  
The wolves are gathered here  
And have no shame for their deeds  
It would seem their time has come  
To rule eternally!  
Enter the maelstrom  
You're fated for battery  
Relentless pursuit of satanic reality  
Caught in the vortex of  
Endless brutality  
Embracing the traits of life's abnormality  
Spinning and whirling  
Your life flies in front of you  
Adrenaline pumping  
Blood boiling inside of you  
Eyes turning red  
Seeing another view  
Open the gates  
This is inside of you  
Feeling the power  
Of united mentality

In numbers and family  
Using our minds  
To subvert negativity

We grind towards infinity  
Join us and increase

And dark surreality
