

# Come To Paradise

Diabolus In Musica

veni ad nos: tempus est  
Quod cupias nostrum est  
Ignem in corde habemus  
Promissa non exuemus

This is the palce where I'm inside  
(Let me show how you must feel)  
A magic circle of dilght  
(No need to think, just join us)  
This is a prison of desire  
We're slaves of love  
I wish it was our world

Enter to paradise  
Come enjoy with us the life  
Welcome to our home  
Come with us and  
Forget all the things  
That don't let you see you're free

I know you want to change your fate  
(Do you think it could be changed?)  
You still don't know where is your place  
(I'll show you where is it)  
You don't have to search it anymore  
Cause you will find your way  
In land of happiness

Enter to paradise  
Come enjoy with us the life  
Welcome to our home  
Come with us and  
Forget all the things  
That don't let you see you're free

(Enter to paradise  
Come enjoy with us the life  
Welcome to our home  
Come with us and  
Forget all the things  
That don't let you see you're free)  
Enter to paradise  
Come enjoy with us the life  
Welcome to our home  
Come with us and  
Forget all the things  
That don't let you see you're free

Veni ad nos veni  
Veni ad nos veni  
Veni ad nos veni  
Veni, veni
