## Diabulus In Musica

(I will bring up the dead to eat the living  
If thou openest not the gates to the dark  
The dead will outnumber the living  
Seven doors to the underworld)

I come from an old lineage  
They were a powerful race  
They lived in hidden mountains  
In deserts, flatness and seas

(She finally entered the last door of the darkness  
And she could not return  
Until she was sprinkled with the water of the life  
Then she passed back through the seven gates...)

My forbears were removed  
But you see I am still here  
Prepared to call the spirits  
Prepared for the ancient rite

(They destroys all our dreams  
In the name of a strange force  
The fire they used against us will return  
But this time... against them)

(They destroyed all our live  
We can not forget  
Although we are just the past  
We've return with her)

Come with me dark creatures of the night  
Come with me tonight  
I can do all that we need to  
I'm the strongest witch

I am the last soul of my folk  
The last chance to revenge for the pain  
I will defy the death

I am the avenging angel  
They call me "Queen of the night"  
I am the eternal nightmare  
For all those who know my name

The queen of war and the queen of love  
This is me  
The new legend is here.
