

# I Think I Love You

Diamond Rio

You've got my attention  
In every dimension  
You've made a deep impression  
On my heart tonight  
Looks can be deceiving  
But what I've been receivin'  
Has got me believin'  
Now the time is right  
To tell you  
I've got to tell you

I think I love you  
I know I need you  
I really want you  
I have to see you  
On a steady basis  
That smile on your face says  
You feel it too  
I think I love you

It's a win win situation  
I'm way beyond elation  
Full of fascination  
For you here in my arms  
So I've made a life decision  
I'm on a one way mission  
To bring this to fruition  
And give you my heart  
I'll show you  
Baby I'll show you

I think I love you  
I know I need you  
I really want you  
I have to see you  
On a steady basis  
That smile on your face says  
You feel it too  
I think I love you

I know I need you  
I really want you  
I have to see you  
On a steady basis  
That smile on your face says  
You feel it too  
I think I love you
