Walkin' Away

Diamond Rio

Sometimes a careless word just rolls right off my tongue Now matter what I do it leaves you all undone Hey baby no need to go crazy over some little something I've sa id Can't you see you're the keeper of my heart Even when I lose my head

We've still got it good no matter how bad it gets Even after all this time the slipper still fits Hey just look at how far we've come by choosing to stay Baby don't go there love don't get nowhere walkin' away

Sometimes the whisper of love gets lost in the angry shout Even hearts that are in this deep might think about an easy way out One honest touch makes those worries just fade like stars at da wn These occasional moments of weakness Only makes our love more strong

We've still got it good no matter how bad it gets Even after all this time the slipper still fits Hey just look at how far we've come by choosing to stay Baby don't go there love don't get nowhere walkin' away

It gets easier all the time Oh and harder and harder to leave behind

We've still got it good no matter how bad it gets Even after all this time the slipper still fits Hey just look at how far we've come by choosing to stay Baby don't go there love don't get nowhere walkin' away Baby don't go there love don't get nowhere walkin' away
