

Good Goodbye

DeGarmo, Diana

Here we are again
All alone
Standing here with you
Now I see Oh
We fought so hard
Now there's just one thing left to do

This is our good goodbye
Been coming around for sometime
We gotta let go of the the lies
We gotta move on with our lives
This is our good goodbye
But it's never a good goodbye

Here we are again
And we both don't want to face it
'Cause we know the end
Is standing at the door
We ran so far
Now there's just one thing left to do

This is our good goodbye
Been coming around for sometime
We gotta let go of the lies
We gotta move on with our lives

'Cause I know, I know
That we are both not meant to be together
I know, I know I guess I just love you more

This is our good goodbye
Been coming around for sometime
We gotta let go of the lies
So we can move on with our lives
This is our good goodbye
But it's never a good goodbye
