

# Can't Do Without You

Diana King

Hi, how you doing?  
Long time no see  
Still remember your face  
'Cause I see it in my dreams

Boy you're looking good  
But then you always did  
Who's the chick with the pretty face  
Is she the one you're with?

Don't tell me you want us to be friends  
That's something I just can't do  
Boyfriend I'm sorry, forgive me  
I got plans for you

I don't like your new gal friend  
'Cause she's standing in the place  
Where I should have been  
I don't like your new gal friend  
She's messing with my head  
She's sleeping in my bed

See I had it all worked out  
To get you back as my man  
To have her in my way  
Wasn't part of the plan

What is this I see  
A new shinning diamond ring  
Are you sure she has no secrets  
'Cause I've heard so many things

Was it so easy to leave me  
And find somebody new  
You'll be sorry, without me  
She's no good for you

I don't like your new gal friend  
'Cause she's standing in the place  
Where I should have been  
I don't like your new gal friend  
She's messing with my head  
She's sleeping in my bed

I don't like your new gal friend  
And I don't think that you should  
Ever see her again  
I don't like your new gal friend  
She's messing up my plan  
She's fucking with my man
