

# Wallflower

Diana King

Twisting your dreds up against da wall  
What ya waiting for?  
Here's the open door  
I see

I seeda fear written all over your face  
Open up your mind  
See what up inside

'Cause I used to flex like that  
And I didn't have no rap  
But that was yesterday, tonight follow your inhibitions  
I used to run and hide  
And I used to live inside  
What I was waiting for was love to come  
and give me freedom

Cumma cumma with me  
See what I see  
Let your body believe  
Feel the power wallflower  
Watch me watch me watch me  
Look how me sexy sexy  
Take you to da extreme  
Feel the power wallflower

Perception is everything when it comes to dis  
Don't you be afraid  
Wha me sing, wha me say  
Sleeping beauty was alive after one kiss  
Baby feel my lips  
Baby ride my hips

'Cause you need to get with this  
Yeah you can't afford to miss  
The chace for miraclesto happen to you this I promise  
You, face open road  
Yeah you, got a heavy load  
Tonight's the first night of the rest of you life...

Cumma cumma with me  
See what I see  
Let your body believe  
Feel the power wallflower  
Watch me watch me watch me  
Look how me sexy sexy  
Take you to da extreme  
Feel the power wallflower

Ooh ooh don't you think I'm sexy, sexy, sexy

Cumma cumma with me  
See what I see  
Let your body believe  
Feel the power wallflower  
Watch me watch me watch me  
Look how me sexy sexy

Take you to da extreme  
Feel the power wallflower
