

## My Shining Hour

Diana Krall

This moment, this minute  
And each second in it  
Will leave a glow upon the sky  
And as time goes by, it will never die

This will be my shining hour  
Calm and happy and bright  
In my dreams, your face will flower  
Through the darkness of the night

Like the lights of home before me  
Or an angel, watching oer me  
This will be my shining hour  
til Im with you again

(Like the lights of home before me)  
(or an angel watching oer me)  
This will be my shining hour  
Til Im with you again
