You Call It Madness

Diana Krall

I can't forget the night I met you That's all I'm dreaming of And now you call it madness But I call it love

You made a promise, to be faithful By all the stars up above Now you call it madness But I call it love

My heart is beating, it keeps repeating For you constantly You're all I'm needing, so I am pleading Please come back to me

You made a plaything out of romance And what were you thinking of For now you call it madness But I call it love
