All of my life I have walked alone In search of a star You are that star You're the one I've waited for You're the one I've waited for All of my life There's a song to sing A chorus for two All that love can bring I'll share here with you You can make it all come true So darling All of your life to share Is all I'm asking All of the minutes and the years All of your happiness And sometimes all your tears So darling All of my life to share Is all I give you All of the flowers in the field We'll walk together through the sunsets and the years So darling All of my life to share Is all I'll give you And all of the flowers in the field We'll walk together through the sunsets and the years All of my life There's a song to sing A chorus for two All that love can bring I'll share here with you You can make it all come true So darling All of my life to share Is all I'm asking All of the minutes and the years All of your happiness And sometimes all your tears So darling All of my life to share Is all I give you All of the flowers in the field We'll walk together through the sunsets and the years

Is all I'm asking

All of your life to share

So darling
