

# Confide in Me

Diana Ross

Confide in me  
Religh on me  
And I will try to satisfy  
Your every need  
Through the day  
'Till we say goodnight

Take it slow, easy go  
Any friend would recommend  
The starlight show  
On a night like this  
I insist you try

Oh, now I know the nights will last  
Morning sun is shining through  
So close the door  
And let the whole world passes by  
While I confide in you

If you take the time  
You will find  
A smile face, warm embrace  
A sympathetic mind, to do it right  
Confide in me tonight

Oh, now I know the nights will last  
Morning sun is shining through  
So close the door  
And let the whole world passes by  
While I confide in you

Confide in me  
Religh on me  
any wish, you've ever missed  
Is guaranteed  
There's a peace of mind  
You will find  
Confide in me tonight  
Ooh, confide in me tonight
