

# Had You Been Around

Diana Ross

I might have known a lot of things  
Been smiled upon by kings and queens  
Had you been around  
Perhaps had you been by my side  
My dreams might not have been denied  
Had you been around

I've wasted many years, tasted many tears  
And I want to know  
Lost on my own before I knew of you

I might have heard the sigh  
Of someone passing by  
Had you been around

And though it seems absurd  
I really never heard  
A sound

Until that day  
You came my way  
With bless I never found  
And it might have been  
Had you been around

Had you been around

Perhaps had you been by my side  
My dreams might not have been denied  
Had you been around

I've wasted many years, tasted many tears  
And I want to know  
I'm lost on my own before I knew of you

I might have heard the sigh  
Of someone passing by  
Had you been around

And though it seems absurd  
I really never heard  
A sound

Until that day  
You came my way  
With bless I never found  
And it might have been  
Had you been around

One more time  
And it might have been  
Had you been around

Do it  
And all might have been  
Had you been around

Had you been around
