

Love Or Loneliness

Diana Ross

Had a nice time
I enjoyed the picture show
When you walked me to my door
I knew I wanted more
When I asked you in
It was already getting late
Though I knew better
I didn't even hesitate
I like the way you hold me
And make me feel so good
Though I say I wouldn't
You kinda knew that I would
It's been so long since I've
Been with a man
Better ask myself
While I still can

Is this love or is it just loneliness
When the sun comes up is this something we will both regret
Is this love or is it just loneliness
We ought to stop and ask ourselves is it really worth it

And how about you
Do you really want me
Or am I just here
To please your masculinity
You don't see me enough
To let me know you care
You know the worst thing for a woman
Is a sometime love affair
Seems like every time
I satisfy your needs
You don't call me back
For two or three weeks

What am I gonna do
I just can't fight
The temptation of loving you

Is this love or is it just loneliness
When the sun comes up is this something we will both regret
Is this love or is it just loneliness
We ought to stop and ask ourselves is it really worth it

Sometimes it's hard
To tell the difference
I'm just not sure
if it's worth it

Is this love or is it just loneliness
When the sun comes up is this something we will both regret
Is this love or is it just loneliness
We ought to stop and ask ourselves is it really worth it

'Cause you never show up 'til midnight
Then you go home early
Now you know that ain't right

I've got a question I wanna ask you
Do you really love me or am I just a fool

Is this love or is it just loneliness
When the sun comes up is this something we will both regret
Is this love or is it just loneliness
We ought to stop and ask ourselves is it really worth it
