

# The Force Behind the Power

Diana Ross

Since the beginning of all life's beginnings  
Right at the very dawning of the sun  
Any and everyone had cause and reason  
For in good all good is done

Now down in every heart there are two forces  
One is for the wrong, one's for the right  
But never do you have to fear with this as armor  
For good always wins the fight

What's that force behind the power that wakes you each day  
What's that force behind the power that chases eavil away  
What's that force behind the power that puts a smile on your face  
It is love, pure love, it is love

In every book of truth it has been written  
That we are measured by the things we do  
If for the good of all is what you like doing  
Then all that good will come to you

That doesn't mean you have to be a rich man  
You could be a person living on the street  
But if you give but only words to lift someone higher  
Then a heart of gold is what you will be

What's that force behind the power that wakes you each day  
What's that force behind the power that chases eavil away  
What's that force behind the power that puts a smile on your face  
It is love, pure love, it is love

What's that force behind the power that makes you willing to share  
What's that force behind the power that for a lost soul you're there  
What's that force behind the power that's not to busy to care  
It is love, pure love, it is love

Not trying to preach about it, but no one can do without it

What's that force behind the power that will lend a hand  
What's that force behind the power when others can't yes you can  
What's that force behind the power it's greater than any man  
It is love, God's love, it is love

What's that force behind the power that tears walls down of hate  
What's that force behind the power that is never too late  
What's that force behind the power that forever will wait  
It is love, God's love, it is love
