

# Colours

Diana Vickers

Hearts, our hearts our beating  
So close, they feel like one  
And it's time, time to believe it  
Love, the unamagination

We're more beautiful than yellow  
And your heart is beating blue  
And you see it on the rainbows  
While the stars fall through

And you see colours colours colours  
You see colours colours colours  
We're more than lovers lovers lovers  
When you see colours  
I see gold, I see gold

You look, but you're scared of seeing  
Eyes closed, now jump to your death  
And you touch, but afraid of feeling  
So trust and I will take you there

You're hiding in the shadows  
But your eyes are shining through  
See the golden in the yellow  
It smiles - are you?

And you see colours colours colours  
You see colours colours colours  
We're more than lovers lovers lovers  
When you see colours [x2]

I see gold, I see gold, I see gold, I see gold  
I see gold, I see gold, I see gold gold gold

You see colours colours colours  
You see colours colours colours  
We're more than lovers lovers lovers  
When you see colours

You see colours colours colours  
(And I see gold gold gold)  
We're more than lovers lovers lovers  
(And I see gold gold gold)

I see, you see, I see gold gold gold gold  
You see, I see, I see gold gold gold gold

I see gold.
