

Lighthouse

Diane Birch

Some days I'm low
And I know I'm far from home
I see my name and a rose
On a white stone
Live a little woman
Your eyes ain't meant to close
I've been walking the
Wasteland of my heart
You came and delivered me

You are a lighthouse
A lighthouse in the dark
You are a lighthouse
Callin' out, callin' out
And you hear me
SOS, SOS and you beam me
'Cos you are a lighthouse
A lighthouse in the dark

Sometimes you fall
To your knees under attack
People they run
When they see the blood
On your back
Give a little honey your lies
Ain't meant to rise
When I'm lost in the ocean
With no chance
You give me deliverance

You are a lighthouse
A lighthouse in the dark
You are a lighthouse
Callin' out, callin' out
And you hear me
SOS, SOS and you beam me
'Cos you are a lighthouse
A lighthouse in the dark

Turn it back around
Silence is the sound
Of a heart on solid ground

Dancing with the dark
It only takes it a spark
To kill the black sky
Break it apart

Callin' out, callin' out
And you hear me
SOS, SOS and you beam me
'Cos you are a lighthouse
A lighthouse in the dark
