

# Speak A Little Louder

Diane Birch

Looking through a dark light  
Tear this page away  
Another side of midnight  
With nothing left to say

Living in the numbers  
Hangin' on the line  
I haven't seen you lately  
Out of sight out of mind

When you're wasting time  
And nobody knows  
What you're saying  
Speak a little louder

When you're chasing lines  
And your body goes and your fading  
Speak a little louder

Just another Headache  
Pushing on the pain  
Just another mistake  
Another link in the chain

When you're wasting time  
And nobody knows  
What you're saying  
Speak a little louder

When you're chasing lines  
And your body goes and your fading  
Speak a little louder
