

Speak A Little Louder

Diane Birch

Looking through a dark light
Tear this page away
Another side of midnight
With nothing left to say

Living in the numbers
Hangin' on the line
I haven't seen you lately
Out of sight out of mind

When you're wasting time
And nobody knows
What you're saying
Speak a little louder

When you're chasing lines
And your body goes and your fading
Speak a little louder

Just another Headache
Pushing on the pain
Just another mistake
Another link in the chain

When you're wasting time
And nobody knows
What you're saying
Speak a little louder

When you're chasing lines
And your body goes and your fading
Speak a little louder
