## **Close Enough For Love**

## **Dianne Reeves**

You and I, an unmatched pair Took the time to touch, to share Worlds apart the night we met We braved the odds and won the bet

Not perfect yet
But close enough for love
How old-fashioned, pure romance
Shared a kiss and shared the dance

Shared the body and bouquet We'll taste the wine another day When you and I Are close enough for love

Not just lovers, more than friends Who knows where one starts, one ends? Tracing lights through sleepless nights That I'll remember always

Always long goodbyes and tearful looks Hold up well in poems and books But you and I have life to hold The greatest story never told

Not perfect yet But close enough for love
