

Mista

Dianne Reeves

It ain't too late
No, It ain't too late
To change your life
Cause everyday is a miracle

A chance to make it right
You complain constantly
'Bout your life your misery
On sunny days you need rain

So your can bitch and stay the same
Always sayin' what you can't do
Forget the fact that God made you
Place the blame on everybody else

I think it's time you check yourself
Hey ah Mista can't you see
The wonders of the Universe
Hey ah Mista can't you see

The wonders of the Universe
You won't help nobody else
'Cause you feel sorry for yourself
Think the world owes you something

You give nothin' you gets nothing
I can't stay here
'Cause you like dying
I like living, I like flyin'

Gonna fly so high
Till I free my soul
Gonna leave you here in your black hole

Hey ah Mista
Can't you see the wonders of the Universe
Hey ah Mista
Can't you see the wonders of the Universe

Thunder and lighting
Oceans and blue skies
A world full of miracles help me to realize
I got the power, I've got the knowledge

Each day's a new chance to better tomorrow
Got the chance to change your life
It ain't too late to make it right
But you're so right so self righteous

You won't move
And I can't let cha'
Mess up my groove
Hey ah Mister? Can't you see
The wonders of the Universe
