Mista

Dianne Reeves

It ain't too late No, It ain't too late To change your life Cause everyday is a miracle

A chance to make it right You complain constantly 'Bout your life your misery On sunny days you need rain

So your can bitch and stay the same Always sayin' what you can't do Forget the fact that God made you Place the blame on everybody else

I think it's time you check yourself Hey ah Mista can't you see The wonders of the Universe Hey ah Mista can't you see

The wonders of the Universe You won't help nobody else 'Cause you feel sorry for yourself Think the world owes you something

You give nothin' you gets nothing I can't stay here 'Cause you like dying I like living, I like flyin'

Gonna fly so high Till I free my soul Gonna leave you here in your black hole

Hey ah Mista Can't you see the wonders of the Universe Hey ah Mista Can't you see the wonders of the Universe

Thunder and lighting Oceans and blue skies A world full of miracles help me to realize I got the power, I've got the knowledge

Each day's a new chance to better tomorrow Got the chance to change your life It ain't too late to make it right But you're so right so self righteous

You won't move And I can't let cha' Mess up my groove Hey ah Mister? Can't you see The wonders of the Universe
