

# Baby Bye Bye

Dickey Lee

Bye bye baby bye bye I won't try to even say why  
No use to sit and just cry this time baby it's baby bye bye

I walk the floor and wonder about you every day  
Never know what you're gonna do next or what you're gonna say  
I don't think your love for me is true  
For you couldn't do what you've been puttin' me through  
So bye bye baby bye bye...  
You don't understand anything I've ever said  
Cause you act like our love life is something you're at  
I can't seem to get inside to you so there's just one thing left  
t for me to do  
Bye bye baby bye bye...  
Bye bye baby bye bye...
