Mary's In India

Danny is lonely Mary's in India now She said she'd call but that was three weeks ago She left all her things well, her books and her letters from hi m But as the sun rises on Mary sets on him And just dance, and just drink And just see the things I probably never get the chance to see Danny's not eating, he's drinking and sleeping I saw him last night at a party, he's definitely thin He says he's happy, he look pretty good But I think That as the sun rises on Mary sets on him And just dance, and just drink And just see the things I probably never get the chance to say Danny came over last night and I cooked for him We talked about you Mary and how much we loved you still He told me he's packed up your books and your letters and thing S But as the sun sets on Mary, it's rising on him And we danced, and we drank And I've seen some things you probably never got the chance to see

Don't worry, Mary Cause I'mtaking care of Danny And he's taking care of me
