

Stoned

Dido

When you're stoned, baby, I am drunk
We make love seems a little dazzler
It's hard sometimes not to look away
And think what's the point when I'm having to hold this fine ti
me
I think I'll explode if I can't feel this free now

R: If you won't let me fall for you
Then you won't see the best things I would love to do for yo
u
Instead you will be missing me when I go
As I want to hang it out in your coat

I feel love baby, joy in the road
And the world moves with me
I feel love start just slip away silently
Quietly take the things and go
And think what's the point, think where's the hope when coming
home

R: If you won't let me fall for you...

And if you find one day, find some freedom merrily
With this freedom maybe, maybe you will find some peace
With this peace baby, I hope it brings you back to me
Bring you home, take me home

R: If you won't let me fall for you...

Oh, take me home
Oh, take me home
When you're stoned, baby, take me home
Oh...
