

## Us 2 Little Gods

Dido

Walking home, burnt and red  
Sticky thin, he said  
let us go down in the woods  
can you be careful she said  
us 2 little gods with the world at our feet

Sticky thin, how you've grown they said  
You'll never fit in your long white dress  
When's he going to try and get a job  
I'm thankful for what we've got she said  
us 2 little gods with the world at our feet

Just in this life, I need no other  
Just this day, I need no more  
Just this moment, let it all stop here  
Let it all stop here I've had my fill.

Summers here, early again  
Lets take the kid and go and celebrate  
Drinking beer, moon on the left  
and there's the sun, hold my hand he said  
us 3 little gods, with the world at our feet

Just in this life, I need no other...
