

# Bang Boom Bang

Die Happy

Bang boom bang  
A bullet into the brain  
Singing supersonic speed again  
Another  
Bang boom bang  
What a beautiful blame  
Got a pain killing drug in my veins  
Oh God, I know it's so strange  
You're my double O-7  
I'm your double D love affaire  
I hear a  
Bang boom bang  
Go from hell to heaven  
Ride an electric chair  
Got the best seat in your car  
Hand in hand we will survive

Playing Bonnie and Clyde  
I would die  
We're standing on the edge again  
Kerosene inside  
Playing Bonnie and Clyde  
Can't you see  
There's an always burning part of me  
Kerosene inside

Bang boom bang  
And you got me going  
Put a gun in my hand and said: go!  
I can't believe all the trouble  
And the passion you show  
Put my reality out of control  
I hear a  
Bang boom bang  
I am caught in a trap  
With your great victorious name  
Another  
Bang boom bang  
I'm delirious  
I feel no pity, feel no shame

Got the best seat in your car  
Hand in hand we will survive  
Playing Bonnie and Clyde  
I would die  
We're standing on the edge again  
Kerosene inside  
Playing Bonnie and Clyde  
Can't you see  
There's an always burning part of me  
Kerosene inside

Everything is good  
In this rainbow coloured place  
Only a few black wholes  
I'll stuff their mouth with lace

Playing Bonnie and Clyde  
I would die  
We're standing on the edge again  
Kerosene inside  
Playing Bonnie and Clyde  
Can't you see  
There's an always burning part of me  
Kerosene

Head over heels  
Heart over fear  
There's an always burning part of me  
Head over heels  
Heart over fear  
Head over heels  
Heart over fear  
There's an always burning part of me  
Kerosene in me
