## **Cry For More**

Cry For More

I wanna be cool - to keep your friends amused I wanne be beautiful - to celebrate the muse I wanna be high - entertain you when you're blue I wanna be wise - just because of you

Maybe then you would see me Maybe then you would care but there's more to love than meets the eye

Would you cry for more If your Love was truly blind Could you cry for more If it's only me you find It's kicking me down

I wanna be strong - to match your every move I wanna be crazy - to myriad of moods I wanna be bright - to stand out in the crowd I wanna be brave - to make you proud

Maybe then you would see me Maybe then you would care but there's more to love than meets the eye

Would you cry for more If your Love was truly blind Could you cry for more If it's only me you find It's kicking me down It's kicking me down It's kicking me down

Would you cry for more If your Love was truly blind Could you cry for more If it's only me you find 2x **Die Happy**
